DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is acknowledged and, therefore, the finality of that action is withdrawn for the reasons set forth below. The proposed amendment dated 8/4/05 has been entered.

Double Patenting

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claims 17-19 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 17-19 of copending Application No. 10/691922. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claim 17 of '922 which depends from and therefore incorporates the limitations of claim 1 is identical to claim 19 of instant application. Claims 17,18 of instant application are the same as claims 18,19 of '922. The applications therefore contain the same invention.

4. The claims 17-19 would distinguish over the prior art for the reasons stated in Applicants Remarks and the Examiners' Final Office Action. The claims are rejected under statutory Double Patenting.
